

Office of the Chair, Wheatland County Agricultural Service Board

February 10, 2025

Dear Town of Drumheller,

On behalf of the Wheatland County Agricultural Service Board, I am writing to express our sincere appreciation for the Town of Drumheller's generous support of our shelterbelt demonstration planting projects. The donation of mulch is crucial in ensuring the successful establishment and ongoing health of over 4,000 trees and shrubs that have been planted in two different locations: Rosebud and the Wheatland County Administration Building. These projects will enhance our local environment by improving biodiversity, air quality, and ecological functions. They will also serve as a valuable educational resource for our community by periodically monitoring tree and shrub species health and survivability in the region.

Your support embodies the spirit of community and collaboration that makes our region exceptional. We are grateful for your collaborative approach. Thank you once again for your assistance and we look forward to continuing our cooperative efforts on future projects that will benefit both our communities and the environment.

Kind regards,

Shannon Laprise

Wheatland County, Agricultural Service Board Chair
